

THE ROADLOANS.COM DEALER NETWORK

RoadLoans.com[®]
Auto finance made easy.

The lead and lending program that gives dealers the power of choice.

“Closing the deal is the name of the game!
With RoadLoans, I can always close the lead...”

RoadLoans, the #1 online direct non-prime auto lender, helps dealers close more sales with its unique lead program. The only program of its kind, RoadLoans gives dealers high quality prospects with a guaranteed finance source. Every customer arrives at your store with a RoadLoans direct approval, but you also have the option of shopping the loan to other financing sources to find the best opportunity for you and your customer.

RoadLoans leads come from buyers across the credit spectrum that are pre-approved, ready to buy and actively looking for vehicles in your market. What's more, because the leads are new and you own the customer relationship from the beginning, you close more sales than through traditional lead channels.
